

Osiyo Daniel Leonhardt,

We pray your path and the path of your family is with out too many sharp stones on it.

For over 211 years now the Indian Creek Band Chickamauga Creek & Cherokee has been un-recognized by the Federal Government, sent we carry on the war again the United State in 1794 and won, because the United State got tired of fight the war, the American people said it was time to stop.

We have file a Petition with U.S. Congressman Mica office in Washington, D.C. asking that the United State Congress Recognition the Indian Creek Band Chickamauga Creek & Cherokee as and American Indian Tribe.

We also had State in the Petition that our Young Warriors go to the war to fight for this lands as they have done for Thousands of years, but when they are kill are hurt they do not get the same honor as other Native People because we are not recognized by the United State Government.

We are asking the Scout to help get the Petition sign by going door to door asking people to sign and support this cause, so we can go on doing our Teaching program for the Scouts and the Public Schools and Collages around this country.

We thank you for your help in this matter; please return all sign Petitions to the Indian Creek Band Chickamauga Creek & Cherokee Tribe 1352 East Lombardy Drive, Deltona, Florida 32725.

Wado
